Summary

Adaptable Software Engineer with experience in developing, testing, and maintaining software applications. Strong grasp of coding languages and debugging processes combined with proactive problem-solving abilities. Proven contributor in collaborative Agile environments, delivering high-quality solutions that drive business objectives.

Skills

- JavaScript/Typescript development
- React framework
- Java Springboot
- CI/CD integration
- Testing automation
- Data-driven testing
- MySQL and MongoDB database management systems
- Restful API development and testing
- Cloud deployment platforms
- Agile methodology

Experience

Associate Software Engineer | Wells Fargo - Minneapolis, MN | 06/2023 - Current

- Developed user-friendly front-end interfaces using JavaScript/TypeScript React, enhancing bankers' ability to offer new credit cards efficiently.
- Implemented back-end and middleware modifications in Java Springboot, streamlining application processes for credit card offerings.
- Collaborated with DevOps teams to integrate projects into the CI/CD pipeline and troubleshoot build and deployment issues, ensuring seamless operations.
- Implemented automated testing frameworks using Selenium and Playwright, ensuring robust and reliable software delivery.
- Collaborated with Product Owners and business teams to ensure rapid and accurate feature delivery.

Automation Specialist | Memorial Blood Center - St. Paul, Minnesota | 02/2021 - 06/2023

- Performed physical examinations of donor vitals and reviewed medical history to determine fitness to donate
- Quickly and carefully prepared and labeled donation bags and equipment
- Set up automated donation machines and performed venipunctures for Whole Blood, Double Red Cell, and Plasma donations using aseptic technique
- Responded to donor adverse reactions during or after the donation procedure
- Created positive donor experiences through good customer service and a comfortable environment to promote repeat donations

Lead Phlebotomist/ Lead Donor Center Technician/Designated Trainer | Grifols Talecris Plasma Resources - West St. Paul, Minnesota | 09/2017 - 01/2021

- Organized and moved staff to critical areas as needed
- Ensured staff were getting breaks and advocating employee issues to management
- Trained new and cross-training employees and helped them perform at expected levels
- Registered applicant donors into the system and reviewed them for deferrable items
- Set up apheresis machines with disposable softgoods and prepared donors for venipuncture and performed

venipunctures for plasma donation

- Monitoring donor condition during the donation process and responding to donor safety issues and emergencies

End-User Technology Associate | Ameriprise Financial - Minneapolis, Minnesota | 01/2017 - 08/2017

- Reviewed and ensured security compliance in Microsoft Enterprise products
- Recorded software changes to the digital infrastructure
- Assisted in the development and deployment of Microsoft Outlook desktop and mobile in the Microsoft Business 365 Suite
- Reviewed trends in service desk requests for Microsoft Outlook desktop and mobile
- Tested new features and security updates to Outlook prior to End-User deployment
- Assisted End-Users with new features and changes

Associate Software Engineer | Wells Fargo - Minneapolis, MN

Education

University of Minnesota | Minneapolis, Minnesota | 08/2022

Certificate: Full Stack Web Development in Javascript

An intensive 6 month program focused on full stack web development in Javascript. The course covered basic front-end HTML 5, CSS, and Javascript all the way through full stack single page React apps with the MERN stack.

Hopkins High School | Minnetonka, MN | 06/2014

High School Diploma
